# SUCCESS STORY: CBRE

## Turning Real Estate into Real ADVANTAGE through Translation

As the world's largest real estate services company, CBRE relies on translation to reach customers across the globe. Albion Languages acts as a trusted business partner, dedicated to managing CBRE's frequent, multilingual translation projects.

### A complex project amongst many

Recently, the CBRE Language Centre required a translation for a special project; translating subtitles for MyCBRE, a training tool for CBRE offices worldwide. With a strict deadline to meet, Albion Languages had to act quickly and efficiently!

- ▶ **Languages:** From English into 20 different languages including Chinese, French, Czech, and LA Spanish
- ▶ **Requirements:** Translation, editing, layout check, and rendering subtitles onto the video track
- ▶ **Deadline:** 7 days!

### The process

The English script was quickly divided into easy-to-read captions with video stills and cues. The finished spreadsheet was sent to all translation teams for translation, before undergoing a rigorous editing quality control check.

### The final product

Albion Languages met all the deadline and language requirements, and created a customised product by submitting recommended subtitle font styles and colours. We could also adjust the subtitle position for different video players.

"We have been cooperating with Albion Languages for more than ten years. Our projects are completed quickly, to short deadlines and at an excellent standard. They look out for and correct possible typing, stylistic errors and text-level contradictions in the source texts too."
