SUCCESS STORY: CBRE

How Translation Turns Real Estate into Real ADVANTAGE

As the world's largest real estate services company, CBRE relies on translation to reach out to customers across the globe. Albion Languages acts as a trusted business partner, dedicated to managing CBRE's frequent, multilingual translation projects.

A complex project amongst many

CBRE recently required subtitle translation for MyCBRE, a training tool for its offices worldwide. With a strict deadline to meet, Albion Languages had to move quickly and efficiently!

- ▶ **Languages:** From English into 20 languages
- ▶ **Requirements:** Translation, editing, layout check, and rendering subtitles to video
- ▶ **Deadline:** Just 7 days!

The process

The English script was divided into easy-to-read captions with video stills and cues. Our 20 translation teams then completed the top quality translation, which underwent rigorous editing and quality control check before delivery.

The final product

The deadline and language requirements were met in full. We even created a customised product by specifying the appropriate subtitle fonts and adjusting the subtitle position for various video players.
